

DR. RAJESH MOHAN RAI

MASTER COACH | HR STRATEGIST |
CORPORATE ADVISOR | INDEPENDENT DIRECTOR

5000+ hours of coaching experience with Leaders of Market Leaders.

COACHING PHILOSOPHY

Dr. Rajesh passionately believes in the power to change, improve and develop, no matter what stage of life you are at.

Many of us spend a lot of time at work, and being able to be the best we can be at 'being us', is what it is all about for me. He has seen many examples of people 'leaving themselves at the door' when they come to work, and feel concerned by the rising levels of stress related health issues, as many are pushed beyond their limits and seek to conform in a way that causes them to lose who they really are. He appreciates all that life has to offer and want to support others in achieving the goals that matter to them.

Dr. Rajesh helps leaders to work out what is important to them and how they can really make the most of their unique talents in work and in life in general. He uses an approach that works for the leader, respecting their uniqueness. He also believes in the power of responsibility and all that comes with it. During the coaching intervention he ensures that the focus always remains on the coachee. When we take responsibility of ourselves and our development, the world becomes a place full of possibilities. 9 of his coachees are CEOs of their respective organizations.
